## Algebra I | North Dakota Mathematics K–12 Standards Correlation to *Eureka Math*<sup>®</sup>

### About *Eureka Math*

Created by Great Minds<sup>®</sup>, a mission-driven Public Benefit Corporation, *Eureka Math*<sup>®</sup> helps teachers deliver unparalleled math instruction that provides students with a deep understanding and fluency in math. Crafted by teachers and math scholars, the curriculum carefully sequences the mathematical progressions to maximize coherence from Prekindergarten through Precalculus—a principle tested and proven to be essential in students’ mastery of math.

Teachers and students using *Eureka Math* find the trademark “Aha!” moments in *Eureka Math* to be a source of joy and inspiration, lesson after lesson, year after year.

### Aligned

Great Minds offers detailed analyses that demonstrate how each grade of *Eureka Math* aligns with specific state standards. Access these free alignment studies at [greatminds.org/state-studies](https://greatminds.org/state-studies).

### Data

Schools and districts nationwide are experiencing student growth and impressive test scores after using *Eureka Math*. See their stories and data at [greatminds.org/data](https://greatminds.org/data).

### Full Suite of Resources

Great Minds offers the *Eureka Math* curriculum as PDF downloads for free, noncommercial use. Access the free PDFs at [greatminds.org/math/curriculum](https://greatminds.org/math/curriculum).

The teacher-writers who created the curriculum have also developed essential resources, available only from Great Minds, including the following:

- Printed material in English and Spanish
- Digital resources
- Professional development
- Classroom tools and manipulatives
- Teacher support materials
- Parent resources

Math Attributes	Aligned Components of <i>Eureka Math</i>
<p><b>9–12.MA.P</b></p> <p>Learners can analyze, execute, critique, and adapt approaches and solutions when problem-solving in novel situations.</p>	<p>Lessons in every module engage students in math attributes. These are indicated in margin notes included with every lesson.</p>
<p><b>9–12.MA.C</b></p> <p>Learners can create connections within and across concepts, using supporting evidence to interpret how they originate, extend, and relate to other learning, ideas, and life experiences.</p>	<p>Lessons in every module engage students in math attributes. These are indicated in margin notes included with every lesson.</p>
<p><b>9–12.MA.R</b></p> <p>Learners can reason logically, citing evidence to critique and explain what they see, think, and conclude through exploration, generalization, and validation.</p>	<p>Lessons in every module engage students in math attributes. These are indicated in margin notes included with every lesson.</p>

**Number and Operations: Learners will develop a foundational understanding of the number system, operations, and computational fluency to create connections and solve problems within and across concepts.**

<p><b>North Dakota Mathematics K–12 Standards</b></p>	<p><b>Aligned Components of <i>Eureka Math</i></b></p>
<p><b>9-10.NO.1</b></p> <p>Explain how the definition of rational exponents follows from extending the properties of integer exponents; rewrite simple expressions involving radicals and rational exponents using the properties of exponents.</p>	<p>Algebra II M3 Lesson 1: Integer Exponents</p> <p>Algebra II M3 Lesson 2: Base 10 and Scientific Notation</p> <p>Algebra II M3 Lesson 3: Rational Exponents</p> <p>Algebra II M3 Lesson 4: Properties of Exponents and Radicals</p>
<p><b>9-10.NO.3</b></p> <p>Choose and interpret the scale and the units in graphs and data displays.</p>	<p>Algebra I M1 Lesson 1: Graphs of Piecewise Linear Functions</p> <p>Algebra I M1 Lesson 3: Graphs of Exponential Functions</p> <p>Algebra I M1 Lesson 5: Two Graphing Stories</p> <p>Algebra I M1 Lesson 24: Applications of Systems of Equations and Inequalities</p> <p>Algebra I M1 Lesson 28: Federal Income Tax</p>
