## Changes for School Year 2023–24 (Digital and Print)

### English and Spanish Language Versions

#### Reminder:

Early Release versions of Eureka Math® TEKS Edition should no longer be implemented. Please ensure that you are no longer using any print teacher or student materials that specifies EARLY RELEASE on the cover.

### Instructional Language & Content Changes

There are currently two iterations of *Eureka Math TEKS Edition* in circulation. Both versions have the same ISBN and are differentiated by using the print impression sequence shown below. Please refer to the details below if you encounter a print mismatch. The most updated versions of the file are digitally accessible through the Eureka Math TEKS Edition in Sync Digital Platform.

#### Grade 4, Module 1—Place Value, Rounding, and Algorithms for Addition and Subtraction

*The following edits to Grade 4 Modules 1-2 were made to more closely align to Grade 4 TEKS, specifically 4.2B: represent the value of the digit in whole number through 1,000,000 and decimals to the hundredths using **expanded notation** and numerals.*

*If teachers or students encounter a mismatch between teacher and/or student facing texts, it is advisable to use the corrected Teacher Edition and student facing materials which may be found [here](#) or on the [Great Minds Texas Support Page](#).*

The edit from “expanded form” to “expanded notation” was applied in the following locations:
