

PhD Science® TEKS Edition Core Text Library

PhD Science TEKS Edition uses 29 core texts. Core texts are resources that enrich the curriculum and provide support for teachers and students. Including these authentic texts in lessons is an important way to highlight coherence and help students build knowledge while also experiencing connections across content areas.

You can order classroom text bundles by grade level using the ISBNs listed on the right. Please note that to teach the full version of PhD Science TEKS Edition, the full core text library is recommended. We've included the recommended text quantity for each grade level on the subsequent pages.
