number bond dash 10

A diagram for a math problem. It features a large square at the bottom with two lines extending from its top corners to the bottom corners of two smaller squares positioned above it. To the right of the large square is a vertical column of six boxes: two small squares at the top, followed by two equals signs, then two more small squares, then two circles each containing a plus sign, and finally two more small squares at the bottom.

number bond and two blank equations

Lesson 10

Target Number:

Target Practice

Choose a *target number* between 6 and 10 and write it in the middle of the circle on the top of the page. Roll a die. Write the number rolled in the circle at the end one of the arrows. Then, make a bull's-eye by writing the number needed to make your target in the other circle.

target practice
