

PACING SUGGESTIONS FOR GRADE 1

MODULE 1

Combine lessons 22 & 23

Combine into one lesson and omit the Problem Sets. Instead, have students create their own flashcards for +0 and +1 facts for lesson 22 and +2 facts for lesson 23. Students can mix up their flashcards and order them (e.g., 2 columns for lesson 22 and 3 columns for lesson 23), thinking of the answers as they go, or they can quiz each other.

2 days for Mid-Module assessment

Starting with Topic G, teach in the following order:

lesson 25, 30, combine lesson 28 & 29, 31, 32, 26, 27, 33, 34, 35, 36, 37, 38, 39

Combine lessons 38 & 39

Have students create their own flashcards for related subtraction facts to be used in the same manner as the addition flashcards mentioned above.

2 days for End-of-Module Assessment

MODULE 2

Omit lessons 5, 9, 11, and 21

Embed conversations about efficiency and strategy comparison throughout Module 2. Application Problems and Student Debriefs can provide opportunities to share and compare students' varied strategies.

Omit lesson 24

Omit lesson 24 if Application Problems are completed daily and if students have completed lessons 22 and 23, which also focus on solving word problems.

2 days for Mid-Module Assessment

2 days for End-of-Module Assessment

MODULE 3

Combine lessons 12 & 13

Omit lessons 11 & 12

Omit lessons 11 & 12, as they go beyond TEKS requirements for Grade 1

2 days for Mid-Module Assessment

2 days for End-of-Module Assessment

MODULE 4

Omit lessons 11 & 12

Omit lessons 11 & 12, as they go beyond TEKS requirements for Grade 1.

2 days for Mid-Module assessment

2 days for End-of-Module Assessment

MODULE 5

No changes

MODULE 6

Combine lessons 3 & 4
Combine lessons 10 & 11

During Module 4, addition and subtraction work is limited to numbers within 40. In Module 6, students extend into numbers within 100. If students are readily able to apply their learning from Module 4 to Module 6, consider consolidating lessons in Topics A, B, and C (e.g., lessons 3 and 4, lessons 5 and 6, and lessons 10 and 11).

Omit lessons 18 & 19

These lessons are optional extension lessons.
